

CCK Grading System Policy

Version No.	Approved By	Approval Date	Effective Date
2.0	BOT, GMs & VPA	July 2025	Fall 2025/2026

1. PURPOSE

To set standards for assigning grades in recognition of student achievement in a course or a program.

2. SCOPE

This policy applies to all courses where student achievement is evaluated.

3. ABBREVIATIONS & TERMINOLOGIES

- Academic Administrator: Program Chair
- Semester GPA: A student's semester GPA is the weighted mean value of all grade points he/she earned on courses attempted during the course of one semester.
- Cumulative Grade Point Average (CGPA): Calculated by dividing the total number of grade points earned to date by the total number of normative instructional hours attempted to date. Applies to all courses within the program.
- Census Day: The 21st day after the semester start date. Withdrawals before this day result in no academic penalty. Withdrawals after this day result in a "WF" grade on transcript.

4. POLICY STATEMENTS

4.1 General Guidelines

1. Grades formalize a student's academic status and guide decisions regarding promotion, probation, dismissal, and academic honors.
2. Grades reflect student achievement of course learning outcomes.
3. The standardized college-wide grading system is applied across all courses and sections.
4. Final grades become official once recorded and released by the Registrar's Office via SIS or in stamped hard copy.

5. GPA CALCULATION GUIDELINES

5.1. The semester and cumulative GPA is obtained through the following procedure:

- Multiply the credit hours for each course by the corresponding grade points merited in each course to get the honor points.
- Add all the honor points to get the total.
- Divide the total honor points by the total number of attempted credit hours during the course of semester (Semester GPA) or for the duration of study since the first semester of enrollment in the program (cumulative GPA).

5.2. Credits Transfers (CT) from other institutions are not included in computing a student's GPA.

5.3. A student's GPA is calculated separately for Diploma and Bachelor programs and will include grade points earned during a summer term if the student has taken studies in CCK during summer.

5.4. GPAs are not calculated for English Language Program.

5.5. In order to pass a course, the student must obtain at least a grade D.

5.6. To be eligible to graduate, all students must have a minimum cumulative GPA of 2.00 at the time of graduation.

6. GRADING SCHEME

Letter Grade	Grade description	Score
A	95-100	4.00 Points per credit
A-	90-94	3.67 Points per credit
B+	86-89	3.33 Points per credit
B	83-85	3.00 Points per credit
B-	80-82	2.67 Points per credit
C+	75-79	2.33 Points per credit
C	70-74	2.00 Points per credit
C-	66-69	1.67 Points per credit
D+	63-65	1.33 Points per credit
D	60-62	1.00 Points per credit
F	Below 60	0.0 Points per credit
FA	Failure of Absence	0.0 Points per credit

7. ACADEMIC STANDING

For formal documentation issued by the College such as graduation certificates, transcripts, and official letters confirming a student's graduation verbal grade classifications are assigned based on the student's final Cumulative GPA (CGPA) and will appear on all applicable academic records as follows:

Verbal Grade Classification	CGPA Range	Arabic Equivalent
Satisfactory	$2.00 \leq \text{GPA} \leq 2.32$	مقبول
Average	$2.33 \leq \text{GPA} \leq 2.66$	جيد
Above Average	$2.67 \leq \text{GPA} \leq 2.99$	جيد مرتفع
Good	$3.00 \leq \text{GPA} \leq 3.32$	جيد جدًا
Very Good	$3.33 \leq \text{GPA} \leq 3.66$	جيد جدًا مرتفع
Excellent	$3.67 \leq \text{GPA} \leq 3.84$	امتياز
Excellent (with honor)	$3.85 \leq \text{GPA} \leq 3.94$	امتياز (مع مرتبة الشرف)
Excellent (with high honor)	$\text{GPA} \geq 3.95$	امتياز (مع مرتبة الشرف العليا)

8. SUPPLEMENTAL PRIVILEGE

FSP (Failure with Supplemental Privilege) is assigned for failing grades that may be upgraded through a supplemental process. If not upgraded within four months, it converts to an "F" unless extended by the Registrar.

9. FOUNDATION, DIPLOMA & BACHELOR PASS CRITERIA

- A pass in Foundation-level courses requires 60%.
- A pass in Diploma and Bachelor level courses requires 60% or higher.
- Course outlines specify if higher thresholds or specific outcomes are required.

10. REPEATING COURSES

10.1. Students are allowed to repeat courses in which they have received a C- or below.

10.2. All repeated courses are noted in the transcript.

10.3. If a course is repeated once, the previous grade obtained in the course will be replaced in the cumulative GPA calculation with the new grade. Previous grades will remain in the Semester GPA of the semester that the course was first attempted in.

10.4. If a course is repeated more than once, all grades obtained in the course subsequent to the first attempt will be calculated in the cumulative GPA as well as the in-semester GPA of each semester that the course was repeated in.

10.5. A student who fails a course during a repeat attempt but has passed that same course during a previous attempt, will still need to repeat the course until receiving a pass grade.

10.6. For a student who does not repeat a course that has been previously failed and hence who does not successfully complete a qualification, the failure result will be included in the GPA calculation.

11. INCOMPLETE GRADE

If a student has an approved excused absence that prevents them from completing the work for that semester, they are given an Incomplete (I) grade. All missed work must be completed within the timeframe indicated in the academic calendar. Failing this, the grade is automatically changed to Fail (F).

12. CHANGE OF FINAL GRADE

A final course grade can only be changed when a Change of Final Grade Form signed by the Academic Chair and the Vice President for Academic Affairs before submitting it to the Registration Department. Grades cannot be changed once a qualification is awarded.
